## SAFARI TOURS – BY VEHICLE

Tanzania is rated as one of the most enchanting wildlife destinations in the world. It is the ultimate safari destination offering unparalleled game viewing experiences where more 25% of its area of 945,087sq km is set aside for game parks and reserves.

Safari tours are operated using 4WD vehicles, all designed to provide for comfortable sight-seeing, photography and game viewing, with sliding windows and a pop-up roof. We use safari vehicles 4-wheel drive (4WD) with passenger cabin configuration of 6-window seats and an extra seat with no direct window access, plus a seat in front next to the driver.

Our safari tours broadly range from mainstream itineraries based on mid-scale facilities, to high-end tours complete with exclusive accommodation facilities and specially appointed vehicles.
